Warsaw, May 1. N. S.

THE King of *Poland* has writ a Circular Letter to the several Provincial Diets that are now assembled to chuse their Deputies for the General Diet, which is to meet here on the 16th of *June*, wherein he acquaints them with the Peace lately concluded between this Crown and the Port, by which the *Turks* are to restore the City and Fortress of *Caminiec*, together with the Provinces of *Podolia* and *Ukrania*; and that he is sending an Ambassador Extraordinary to the Grand Signior; He informs them of what has passed in the Affair of *Elbing*, and that the Senate are of Opinion to accept the Mediation of the Emperor, and the other Princes and States, who have offered to employ their good Offices for accommodating this Matter, provided the Elector of *Brandenburgh* do agree to put the said City into some Neutral Hand, before the Treaty be set on foot for this purpose; He acquaints them likewise, that the Troubles of *Lithuania* are ended, by the Agreement made between the Houses of *Sapieha* and *Oginsky*; And he exhorts them to give their Deputies such Instructions, as may tend to secure the Peace and Tranquillity of the Kingdom. The Commissioners appointed to take Possession of *Caminiec*, and the other Places that are to be delivered up by the *Turks*, as likewise to see those Places evacuated which are to be restored to them pursuant to the Treaty of Peace, are arrived at *Lemberg*, and are expecting to hear from the Bassa of *Caminiec*, on what day he will be ready to evacuate the same; And in the mean time, the Crown-General has issued Orders for the Forces of *Poland* that are quartered in *Russland* to draw together, in order to make Detachments out of them, to furnish Garrisons for the Places that are to be restored to this Crown. The Letters from *Lemberg* say, the Peace has been published in *Budziac*, and other Parts of *Tartary*, together with a very strict Order from the Grand Signior, forbidding the *Tartars* to make Incursions into the King of *Poland*'s Territories.

Vienna, May 6. Their Imperial Majesties Journey to *Luxembourg* continues fixed for the 8th Instant; and it's said, that the Emperor intends, towards the beginning of the next Month, to go to *Presbourg*, where the States of *Hungary* are then to meet, in order to settle the Affairs of that Kingdom; It's reported, that the City of *Buda* will be restored to all its ancient Privileges, and that the Emperor designs to place there the Chief Courts of Justice, and the Chamber of the Finances, which are now at *Presbourg*. It's believed, the King of the *Romans* will likewise go to *Hungary*, and visit the fortified Places on those Frontiers. Our Letters from thence give the following Account of the Conferences at *Salankemen*, for settling the Limits between the Emperor and the Grand Signior's Dominions; The first thing considered, was the making a Line or Ditch, pursuant to the Treaty of Peace, from the Shore of the *Danube* opposite to the Mouth of the *Tyssa*, to the *Save* near *Swerem*; The *Turkish* Commissioners pretended, that the same ought to be made, so as to include *Salankemen* in the Sultan's Dominions; but this was opposed by the Emperor's Commissioners, and gave occasion to some Debate, but at last 'twas agreed, that the said Ditch should be carried on at some distance beyond *Salankemen*, so that this Place is to continue in the Emperor's Possession; And according to this Agreement, the Ground where this Ditch is to be made was staked out, and 500 Rascians are employed by each side to work on the same. The *Turkish* Officers on that Frontier have caused publick Notice to be given at *Belgrade*, and in the other Frontier Places, that the Grand Signior has granted freedom from Taxes for 50 years, and several other Privileges to all such as will come and settle within his Dominions in those Parts. Directions are given for finishing the new Fortifications at *Arat*, as likewise the Fort near that Place, which were begun last Summer, and are intended to serve as a Curb to the Garrison of *Temeswaer*; For which reason, very strong Garrisons will be continually kept in those two Places. Signior *Ruzzini*, Ambassador from the Republick of *Venice*, set out from hence last *Monday* on his return home.

Francfort, May 13. The Diet of the Circle of *Franconia* is assembled at *Nurmberg*, to consider of divers Matters relating to the Garison of *Philipsburgh*, and particularly to agree about the number of Men to be furnish'd by each Member of the said Circle. The Count of *Nassau Weilburg*, and Baron *Wiser* Chancellor of the Palatinate, are returned to *Dusseldorp*. It's said, there will shortly be a General Review of the Elector Palatine's Forces quartered in these Parts, after which, the Horse and Dragoons are to march back to their Quarters, and the Foot will be employed in making some new Fortifications at *Manheim*. We hear from *Alsace*, that the *French* are demolishing the remaining Arches of the Bridge over the Rhine near *Brisac*, and give out that they will shortly evacuate that Place; They work very hard on the new Fort they are building over-against it, which they design to call *New Brisac*. Two Declarations have been lately published in these Parts, the one by the Landgrave of *Hessen-Cassel*, and the other by the Landgrave of *Hessen-Darmstadt*, to invite the Protestants, banished by the Duke of *Savoy*, to come and settle in their Territories, promising them divers Privileges.

Hamburgh, May 15. The Dukes of *Mecklenbourg-Swerin* and *Strelitz* are come hither, in order to renew the Conferences for adjusting the Pretensions they both make to the Succession of the late Duke of *Mecklenbourg-Gustraw*, which have been interrupted for some time. They write from *Dresden*, that the Prince of *Furstemberg* is returned thither from *Warsaw*, with some Members of the Council of State of *Saxony*, who had accompanied him in his Journey to *Poland*.
